

Homework 2

Linguistic Data: Quantitative Analysis and Visualisation

Ilya Schurov, Olga Lyashevskaya, George Moroz, Alla Tamboltseva

Deadline: 03 February 2019

For some homeworks we use parts of online courses from Datacamp. For participation you need to fill in this [google form](#). Then you will receive an invitation to Datacamp.

For Homework 2, please, complete the following chapters of the course “[Data manipulation in R with dplyr](#)”:

- Introduction to dplyr and tbls (Chapter 1, all assignments)
- Select and mutate (Chapter 2, all assignments)
- Filter and arrange (Chapter 3, all assignments)
- Summarize and the pipe operator (Chapter 4, all assignments)

Please send the progress of the online course (a screenshot where your name/login/email is readable) to the [course assistant](#) until 23:59 03.02.2019.

Feel free to ask any questions concerning tasks and Datacamp interface.
