

# Homework 2

Linguistic Data: Quantitative Analysis and Visualisation

*Ilya Schurov, Olga Lyashevskaya, George Moroz, Alla Tambovtseva*

*Deadline: 03 February 2019*

For some homeworks we use parts of online courses from Datacamp. For participation you need to fill in this [google form](#). Then you will receive an invitation to Datacamp.

For Homework 2, please, complete the following chapters of the course “[Introduction to R](#)”:

- Vectors (Chapter 2, all assignments)
- Factors (Chapter 4, all assignments before *Battle of sexes*)
- Data Frames (Chapter 5, all assignments before *Only planets with rings that are shorter*)

Please send the progress of the online course (a screenshot where your name/login/email is readable) to the [course assistant](#) until 23:59 03.02.2019.

Feel free to ask any questions concerning tasks and Datacamp interface.
